Dear friends,

I thought you would be happy to see some photos of the “action” on the site. We are currently working on the foundations of the “lower basement” section.

The photos above show the footings for the foundations, the staircases and the elevator pit. I’ve also added a photo from the model to help you visualize the portion of the building we are working on.

More photos are available on the [photos section](#) of the website.

You may also enjoy this brief [video](#).

Recently a young mother brought her new baby and her two year old son to Crestwell Centre. The two year old Deaglan was holding a [big gift bag](#) which he very happily gave to one of the ladies at Crestwell. In the bag was \$40, the donation of his birthday money to CRCC!

With your generous gifts we continue to move ahead with the project and we thank you for your ongoing support and your prayers.

Best regards,

Fadi
